

The Clear Choice
Water Filtration Systems

AISTRO-L-CL

**In-line water softening
filter cartridge**

General Description:

AQUAFILTER AISTRO-L-CL in-line cartridge fits most 1/4 inch water line and requires no additional tools for installation. Once the filter is installed in place, there are no extra steps required.

Just turn on the water to get it softened. Cartridges include pre- and post-filters preventing media particles from being washed out. Transparent housing allows evaluation of the cartridge - you see what you buy!

AQUAFILTER AISTRO-L-CL was designed to allow optimal contact between water and the resin therefore ensuring maximum performance (ion exchange).

AISTRO-L-CL utilizes FDA-grade sodium based strongly acidic ion-exchange resin which reduces calcium and magnesium ions content in water. Calcium and magnesium are often called "hardness minerals". Large amount of these ions in water are responsible for a formation of the scale deposits, higher detergent consumption and stains on a glassware. In extreme situations large amount of calcium and magnesium can lead to glass etching. Hard water leaves an invisible film on a skin, which blocks pores.

This in turns causes chapping, itching and dryness. Softened water contains almost no calcium & magnesium. It enables people to use lesser quantities of soap, shampoo, and skin care products. Moreover detergent consumption is reduced.

AQUAFILTER AISTRO-L-CL can be used on bottleless water coolers, reverse osmosis systems, coffee machines, ice makers, refrigerators and every POU application where soft water is required. Keep in mind when water is extremely hard, filter will be exhausted very quickly, therefore a conventional **AQUAFILTER** water softener should be used.

Each cartridge is pressure tested.

Features:

- High quality
- Competitive pricing
- Transparent housing - you see what you buy
- High capacity FDA approved ion-exchange resin
- Excellent choice for lime scale removal and lime scale problems
- Made in the EU with High Quality materials

Application:

- pre RO systems
- under sink
- icemakers
- water coolers
- refrigerators
- coffee makers
- and other application

IMPORTANT NOTICE: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Cartridges are designed for filtration with cold potable water. We recommend regularly scheduled maintenance and replacement of the filter cartridge in order for the product to perform properly.

Improper installation and maintenance may result in property damage due to water leakage.

Limited Warranty: AQUAFILTER warrants that this product is free from defects in materials and workmanship.

* filter cartridge lifetime depends on contamination level of potable water.

Specifications:

Media: FDA approved ion exchange resin
Connections: 1/4" NPT
Filter Life: 3 - 6 months
Dimensions: 2.5" x 12" (74 mm x 288 mm)
Flow Rate: 2.8 l/min (0.75 gpm)
Operating Pressure: 6 bar (90 psi)
Minimum Temperature: 2°C (35°F)
Maximum Temperature: 40°C (104°F)
Body & Cap: PET
