FHCTF2

Twin 2-Stage Countertop Water Filter

General Description:

AQUAFILTER offers **FHCTF2** - 2 stage system for countertop point-of-use installation.

FHCTF2 provides a continuous supply of clean, fresh drinking water. System is equipped with two types of filter cartridges **FCPS20 (NSF approved)** and **FCCBL**.

FCPS20 removes sediments such as sand, silt, rust, suspended solids down to 20 µm. **FCCBL** (carbon block) removes free chlorine removal, certain pesticides and organic compounds thus greatly improving taste and odour of filtered water.

FHCTF2 is one of the simplest and most economic solutions designed to improve the quality of potable water. This filter is easy to install and use. It can be placed on a kitchen countertop and connected directly to kitchen faucet.

In case of non-standardized kitchen faucet thread, transition adapters **FXFVP** and **FXFTP** are available.

Features:

- High quality
- Competitive pricing
- Fast product delivery
- A wide range of interchangeable water filter cartridge types
- Made in EU
- Compact, undercounter, and apartment size
- Manufactured from FDA CFR-21 compliant materials
- Two Stages of Filtration
- Easy to install with System Specifications
- Filter equipt with faucet and all installation accessories
- Improved taste and odour of water
- Designed for enhanced dirt-holding capacity.
- Great-tasting water for drinking and cooking.
- User friendly
- Easy to install
- Remove chlorine
- Remove organic compounds

Recomendations for Use:

- Point-of-Use (POU) systems can filter out bad tastes, colors or odors, which pose no health risk but still affect the water quality
- This system will improve the flavor of water used for drinking and cooking
- Perfect for almost any household
- Recommended for Families

Made in EU

Additional accessories

NOTE

- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
 - Water filtration systems can help reduce the presence of contaminants. In addition, some water filtration systems can help reduce the presence of microorganisms or other contaminants with potential health effects.
 - We strongly recommend regularly scheduled maintenance and replacement of the filter cartridge in order for the product to perform properly.
 - Replace the filter cartridge at least every 3 or 6 months (depending on water quality).
- LIMITED WARRANTY:** AQUAFILTER warrants that this product is free from defects in materials and workmanship. This warranty, together with any and all warranties implied by law, shall be limited to a period of two (2) years from the date of original purchase. This limited warranty does not apply to failures that result from abuse, misuse, alteration or failure to properly comply with installation or cartridge change instructions.
